### PRODUCT DESCRIPTION

The pleasant warmth of the Avide infra bulb soothes the body and improves blood circulation.

The infrared lamp may be used effectively to:

- relieve cold-related and respiratory problems
- reduce muscle pain
- treat skin injuries

- Beneficial effects: The beneficial effects of infrared light are well known. The heat penetrates under the skin and thus stimulates blood circulation, which in turn relaxes muscles and reduces pain. As a result, detoxification and healing may also be accelerated.

Use with special caution as it may cause burns or eye inflammation if eyes are not closed during use. A maximum daily use of 5-10 minutes is needed. Never hold the lamp close to the area treated, depending on intensity, the ideal distance is 50-70 centimeters.

Do not use an infrared lamp in case of fever!

Use is recommended with a ceramic socket.
